12 About this report

How the figures in this report were worked out, and how to read them.

- ✓ All charts are sidereal (Lahiri ayanamsa) with whole-sign houses, calculated on this device. Without a birth time a chart is cast for noon and houses count from the Moon.
- ✓ The window runs from 1 Nov 2026 to 31 Oct 2036. Dashas follow the Vimshottari system; sign changes and stations are found to the minute.
- ✓ Event windows combine each person’s running dasha with Jupiter, Saturn and Rahu transits over the houses linked to each event, graded Strong, Likely or Possible; age ranges apply (for example, marriage windows from 20 to 48, and none for those already married).
- ✓ Sade Sati spans come from Saturn’s actual sign changes over the person’s Moon sign.
- ✓ Harmony blends 70% kundali with 30% Lo Shu, the mix set in the app.
- ✓ Predictions read three timing systems together for each person: the dasha shows what a period promises, the transits of Jupiter, Saturn, Rahu and Ketu show when it is triggered, and the Varshaphal confirms the year. Each month weighs the dasha 40%, the transits 35% and the Varshaphal 25%, each measured against an ordinary month; life areas are shown where at least two systems agree. The family views only count and line up each person’s own months.
